Ms. Ashley Toy
US Environmental Protection Agency
Region III
1650 Arch Street
Philadelphia, PA 19103-2029

Dear Ms. Toy:

I am writing to correct some of the information that was included in your report to me of 12 September 2011.

1. Under the paragraph facility description, the following information is not correct. Manure is applied to both cropland and pasture. Houses 551 and 554 were built in 1987 and 100 feet added to them in 1990. House 720 was built in 1992. In regards to the length of time that there two flock on the premise at one time, two weeks rather than 6 is the norm and only on very rare occasions is the schedule compressed.
2. Under the Drainage paragraph, the report refers to the ditch on the east side of 551, as shown on site map 4, draining toward the litter shed. This is incorrect. All the water in that ditch runs west toward [REDACTED] and not east as shown in map 4.

The rest of the information is correct. Please correct the official record on the above items. Thank you for your attention to this matter.

Sincerely,

[REDACTED]
